Vesuvius—Rich red	3.00	2.50	2.00	1.50	1.25	1.00	.50

We find ourselves loaded up on mixed bulbs running from one inch up that are slightly smaller than the nurseries can use. They will give as fine and as large bloom this season as a larger bulb. This is made up of all varieties from our stock and for those who do not care for the named varieties, are great bargains. We will sell these to our customers at \$6.00 per 1000 and not less than 500 to any one order.

For our regular list enclosed, twenty-five bulbs at the 100 rate and 1000 bulbs at nine times the 100.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and the role of the accounting department in ensuring the integrity of the financial statements. It also highlights the need for regular audits and the importance of transparency in financial reporting.

2. The second part of the document outlines the various methods used to collect and analyze data, including surveys, interviews, and focus groups. It also discusses the challenges associated with data collection and the importance of ensuring the reliability and validity of the data.

3. The third part of the document describes the results of the data collection and analysis, including the identification of key trends and the development of recommendations for future action. It also discusses the importance of communicating the results of the research to the relevant stakeholders and the need for ongoing monitoring and evaluation.

4. The fourth part of the document provides a summary of the findings and conclusions of the research, highlighting the key points and the overall impact of the study. It also discusses the limitations of the research and the need for further investigation in this area.

5. The fifth part of the document provides a list of references and a bibliography, including the sources used in the research and the works cited in the document. It also includes a list of appendices and a list of figures and tables.

Following by the Dozen Unless Noted

Niagara—Cream with carmine throat -----	½ size	.40	Large	.75
Orange Queen—Apricot orange (Prim) -----	½ size	.80	Large	1.50

Our mixed bulbs are made up from all varieties grown by us and include seedlings of which we grow each year. Any seedlings that do not merit being named go into this lot. They will please any one who does not want the named varieties; but fine bloom instead. These we sell at \$2.00 per 100 blooming size bulbs, prepaid to any address.

This season we are offering to the public, some of our bulbs grown from seed. We raise many thousands of these each year. Our offerings are the cream of those grown over a period of years and are offered after a thorough trial under field conditions which prove them of real worth.

Our Victoria Turner, large clear pink with cream line down each petal. Strong stem standing 36 to 40 inches. Holds color in strongest sunlight. Each \$1.00. One half size 50c.

One customer writes, 'your Victoria Turner bulblet bloomed and was certainly beautiful. Many of my friends saw it and all thought it beautiful.' Is great producer. The season this was discovered we carefully dug it and found 54 bulblets attached. 47 of these grew the next season.

Mern, a clear cerise of wonderful size and form. Height 36 inches on the average. A bouquet of these left at the house of a friend who is the head of a large corporation in this city and a great flower lover. We later received a letter as follows:—"Every one admires the seedling 'Mern' you left at my house a few days ago. My family think it one of the most beautiful gladiolus they ever saw and as you know I have raised a good many. I was looking at it this morning and could not help but note how it has opened up. On one stem there are seven perfectly formed flowers, fully opened with none of them showing any signs of fading." Each \$1.00. One-half size 50c.

'Lavender Vale' has been thoroughly tried out in field for stamina and shows itself a very vigorous sort. Is a lavender of fine type given to slightly folding back on open flowers. You will surely like it. Many stalks grow four feet and over. Each 50c, one-half size 30c.

E. N. Tilton, a very striking color, hard to describe, with its wonderful blending of colors. Is rich rose blending into tan at outer petals. Have never seen a seedling that pleased me more than this. Is rather low growing for so large a flower. Stands about 24 to 28 inches in height. A very striking color alone. Each \$1.00. One-half size 50c.
